**BRISBANE MINING 2011
CONFERENCE PRESENTATION
AND VIDEO INTERVIEW**

MacPhersons Reward Gold Ltd (ASX: MRP) ("MacPhersons") will today present an update of exploration results and planning of projects relating to MacPhersons gold, silver and zinc projects located at the Nimbus-Boorara Project at Kalgoorlie and the Tycho and A-Cap/MacPhersons Gold Project at Coolgardie.

The Presentation is attached and can be viewed on the Company's website at www.macphersonsreward.com.au.

Further to the slide presentation, we have carried out an interview with Financial News Network. A copy of the video presentation can be viewed on the Company's website at www.macphersonsreward.com.au or on the following link:

About MacPhersons

MacPhersons Reward Gold Ltd (MRP) is a Western Australian resource company with a number of advanced gold, silver and zinc exploration projects.

The Company's focus is to explore and extend the highly prospective Boorara and MacPhersons geological domains of which the Company holds 100% interest in 11km and 7 km of strikelength, respectively, including the Nimbus silver-gold-zinc mine and the namesake MacPhersons open cut gold mine.

To fast track the opportunity to process MacPhersons' ore within the MRP business, the Company has acquired mill processing and mine assets at the Nimbus silver-gold-zinc mine, located 10 km east of Kalgoorlie's superpit. The assets come with an approved site for ore processing.

The assets have advanced exploration targets adjacent to and beneath 10 existing open cuts and with multiple polymetallic VHMS deposits carrying silver-gold- zinc-lead-copper mineralisation, and new greenfields discoveries.
