## MacPhersons extends AGM Invitation to Shareholders

MacPhersons Resources (ASX:MRP) is pleased to invite shareholders and media to the Company's Annual General Meeting to be held on Thursday 20 November 2014 at the Kalgoorlie-Boulder Chamber of Commerce and Industry – Meeting Room.

Following the AGM, a tour of the Nimbus-Boorara mine sites will be conducted. This will be a great chance to have a look at the current activities, proposed development of the mine, mill expansion, and also to talk with the Company Directors and senior management.

MacPhersons has had a very busy year with successful project growth, increase of ore reserves, mine and mill designs and development of the project schedule. The Company continues to develop strategies to lower capital and operating costs, increase resources and project life and deliver value back to its shareholders.

The MacPhersons' team looks forward to sharing this vision with you at our AGM in Kalgoorlie.

As this meeting and mine tour will involve a light lunch and bus tour, it is recommended that you please RSVP for the AGM as soon as possible to Janine Varley on 08-9068-1300 or [janinev@MRPresources.com.au](mailto:janinev@MRPresources.com.au)

If you wish to only attend the AGM but not the mine tour, please advise.

## About MacPhersons

MacPhersons Resources Ltd (MRP) is a Western Australian resource company with a number of advanced gold, silver and zinc exploration projects.

The Company's focus is to explore and extend the highly prospective Boorara and MacPhersons geological domains of which the Company holds 100% interest in 20km and 11km of strikelength, respectively, including the Nimbus silver-gold-zinc mine and the namesake MacPhersons open cut gold mine.

To fast track the opportunity to process MacPhersons' ore within the MRP business, the Company has acquired mill processing and mine assets at the Nimbus silver-gold-zinc mine, located 10km east of Kalgoorlie's super pit. The assets come with an approved site for ore processing. A Bankable Feasibility Study (BFS) examining a 4-fold increase in the processing plant capacity is nearing completion.

The assets are at an advanced stage of exploration with prospects adjacent to and beneath 10 existing open cuts and with multiple polymetallic VHMS deposits carrying silver-gold- zinc-lead-copper mineralisation, and new greenfields discoveries.

## Competent Person's Statement

The information in this report that relates to Ore Reserves, Mineral Resources and Exploration Results is based on information compiled by Mr Morrie Goodz who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Morrie Goodz is a full time officer of MacPhersons Resources Ltd and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Goodz has given his consent to the inclusion in this report of the matters based on the information in the form and context in which it appears.
