

Morrie Goodz Talks About Large Silver Halo

MacPhersons Reward talks about large silver mineralisation halo around high-grade massive sulphide intersections exceeding 1,500g/t silver.

Morrie Goodz, Managing Director of MacPhersons Reward Gold Ltd (ASX: MRP) invites you to listen to the recent Boardroom radio interviews discussing the January and February ASX releases on the high-grade intersections from the Nimbus Silver mine drilling program at Kalgoorlie.

To listen, copy the following details into your web browser:

Highlights of the release were:

MacPhersons Reward Gold Limited (ASX:MRP) is pleased to announce that the drillcore assay results received at its 100% owned Nimbus Project, have confirmed the high grade VHMS zone is continuing along strike.

- Latest diamond drillhole NBDH030 has intersected several sulphide zones including a 17.5m massive sulphide zone (see photo below);
- Preliminary assay results from NBDH026 show a silver bearing zone exceeding 46.7m downhole thickness from 23.5m downhole depth with two high grade zones:
 - 12.7m @ 929 g/t silver from 55.8m;
 - 2.7m @ 226 g/t silver from 23.5m
 - 3 one-metre intervals exceeding 1500g/t silver
 - The lowest assay in the 46.7m thick zone was 12 g/t silver over a one-metre interval
- Assaying of NBDH026 is not yet completed and results on additional drillholes and the tailings drilling is forthcoming. It is anticipated that the strike extension holes to this mineralisation will be drilled later in February.

The Directors are pleased with additional thickness and continuity of these VHMS zones, and the extension of mineralisation between the Discovery and East Pits.

Competent Person's Statement

The information in this report that relates to mineral resources and exploration results is based on information compiled by Mr Morrie Goodz who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Morrie Goodz is a full time officer of MacPhersons Reward and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Goodz has given his consent to the inclusion in this report of the matters based on the information in the form and context in which it appears.
